

365 Surgical Drapes

365 Surgical Drapes are single use reducing the risk of cross infection or surgical site infection for the patient and clinician in an Operating Theatre.

365 surgical drapes are designed to be absorbent, strong and an effective bacterial barrier. 365 Healthcare surgical drapes are fully compliant with EN13795. By meeting the EN13795 standards clinicians can be confident that they offer adequate protection in an Operating Theatre.

365 Surgical Drapes provide:

- An efficient fluid and particulate barrier
- High level strength and absorbency
- Sound surgical bacterial barrier
- Lightweight, breathable fabric for comfort
- Procedure specific draping solution
- Quality, cost effective draping solutions

365 surgical drape set have been developed to provide all the drapes needed for a particular surgical procedure. Many of the drapes you can find in sets are also available as stand alone supplementary drapes, popular lines include sterile Trolley covers and Utility Drapes.
